DC Centre Wedding Dance Information

The First Dance that Lasts A Lifetime!

Introduction

The bride and groom's first dance as a married couple is the most touching of all wedding traditions. However, it can also be a stressful time for brides and grooms who aren't comfortable being the center of attention. We, at DC Centre understand those feelings & can help.

Most of us have seen a first dance where the newlyweds "sway", "rock" or even stand still to their chosen song; this doesn't have to be you! Make your first impression as husband and wife, a lasting one.

Call DC Centre today and let us choreograph your first dance together into a beautiful memory.

The DC Centre Way

We begin your journey with a complimentary wedding dance consultation. This meeting will be with your wedding dance instructor, where you will choose the music for your wedding dance, decide upon a routine style, and decide which Wedding Dance Package best suits your needs.

The Music

Every couple is different and your music should represent your relationship and style. Some couples want a slow romantic ballad

while others prefer an up-tempo energetic song. There is no right or wrong; it's YOUR song.

The Routine

Again, the routine style is a personal choice. Our certified instructors can choreograph a simple wedding waltz or foxtrot, a sexy tango or a funny routine. In general, the routine style will illustrate the mood of the song that you choose.

Wedding Dance Packages

We offer several Wedding Dance Packages from which you can choose. The Bronze Package begins at just \$165, the Silver Package begins at \$330 and the Gold Package begins at \$495. The Wedding Package can easily be determined by the type of routine that you choose. Every dance package begins with a complimentary wedding dance consultation.
